CIBO BRISTLES

Ideal for finishing irregular surfaces

Whatever material you're working with, Cibo bristle brushes are the perfect tool for **finishing highly irregular workpieces** or **hard-to-reach areas**.

These brushes are made from **thermoplastically bonded abrasive** material and are available in various grits and sizes. They are the perfect choice for use on CNC machines where uniformity and durability are crucial. Cibo Bristles are the **ideal replacement for steel wire brushes**. They do **not scratch** the underlying surface during deburring and neatly round the edges. They're also a much **safer option** than steel wire brushes, as there's no risk of flying wire fragments.

FLEXIBLE & COMFORTABLE

The brushes are flexible and easily adapt to complex shapes. The "curved" quality (C) white bent bristles ensures a consistent finish without extra operator effort.

UNIFORM FINISH

The flexible bristles follow the surface effortlessly and provide a consistent finish. They are wear-resistant and don't break easily.

COOL GRINDING

Cibo Bristle discs generate little heat thanks to their fast performance and efficient bristle tips. This keeps the workpiece free from deformation or discoloration, even with sensitive materials.

MORE FLEXIBLE

MORE AGGRESSIVE

APPLICATIONS

- Removing weld discoloration
- Cleaning **very irregular** or **hard-to-reach** surfaces
- Removing **mill scale**
- Deburring aluminum profiles
- Cleaning or deburring threads

IDEAL FOR CNC OR WIRE BRUSH REPLACEMENT

Cibo's bristle abrasive brushes are ideal for use on CNC machines and are also an excellent replacement for wire brushes, as they don't produce flying metal wires!

AVAILABLE GRITS

grit **P50**
(green)

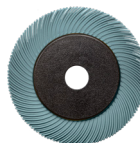

grit **P80**
(yellow)

grit **P120**
(white)

grit **P220**
(red)

grit **P400**
(blue)

AVAILABLE SIZES

Ø 75

Ø 150

Ø 200

BRISTLES RANGE

CIBO BRISTLE - Ø 50 - (CURVED)

diameter	grit	code	color	max. RPM	
Ø 50	P50	CB/50/50/C	green	25000	12
	P80	CB/80/50/C	yellow	25000	12
	P120	CB/120/50/C	white	25000	12

CIBO BRISTLE - Ø 75 - (CURVED)

diameter	grit	code	color	max. RPM	
Ø 75	P50	CB/50/75/C	green	15000	12
	P80	CB/80/75/C	yellow	15000	12
	P120	CB/120/75/C	white	15000	12

MANDRLES (MHS6/SBB)

diameter	max. useful width	for wheels with centre hole	code	
Ø 6	16mm	Ø 9,53mm	MHS6/SBB	1

CIBO BRISTLE - Ø 150 - (ANGLED)

diameter	grit	code	color	width	max. RPM	
Ø 150	P50	CB/50/1501325/A	green	13mm	6000	1
	P80	CB/80/1501325/A	yellow	13mm	6000	1
Ø 150	P50	CB/50/1501325/A/40 (refill)	green	2mm	6000	40
	P80	CB/80/1501325/A/40 (refill)	yellow	2mm	6000	40

These brushes are supplied with reduction rings of 13 mm, 16 mm, 19 mm, and 22.2 mm.

CIBO BRISTLE - Ø 150 - (CURVED)

diameter	grit	code	color	width	max. RPM	
Ø 150	P50	CB/50/1501325/C	green	13mm	6000	1
	P80	CB/80/1501325/C	yellow	13mm	6000	1
Ø 150	P120	CB/120/1501325/C	white	13mm	6000	1
	P220	CB/220/1501325/C	red	13mm	6000	1
	P400	CB/400/1501325/C	blue	13mm	6000	1
	P80	CB/80/1501325/C/50 (refill)	yellow	2mm	4500	50

These brushes are supplied with reduction rings of 13 mm, 16 mm, 19 mm, and 22.2 mm.

CIBO BRISTLE - Ø 150 - (STRAIGHT)

diameter	grit	code	color	width	max. RPM	
Ø 150	P50	CB/50/1501325/S	green	13mm	6000	1
	P80	CB/80/1501325/S	yellow	13mm	6000	1

These brushes are supplied with reduction rings of 13 mm, 16 mm, 19 mm, and 22.2 mm.

CIBO BRISTLE - Ø 200 - (ANGLED)

diameter	grit	code	color	width	max. RPM	
Ø 200	P50	CB/50/2002525/A	green	25,4mm	4500	1
	P80	CB/80/2002525/A	yellow	25,4mm	4500	1

These brushes are supplied with reduction rings of 13 mm, 16 mm, 19 mm, 22.2 mm.and 25,4 mm.

CIBO BRISTLE - Ø 200 - (CURVED)

diameter	grit	code	color	width	max. RPM	
Ø 200	P50	CB/50/2002525/C	green	25,4mm	4500	1
	P80	CB/80/2002525/C	yellow	25,4mm	4500	1
	P120	CB/120/2002525/C	white	25,4mm	4500	1

These brushes are supplied with reduction rings of 13 mm, 16 mm, 19 mm, 22.2 mm.and 25,4 mm.

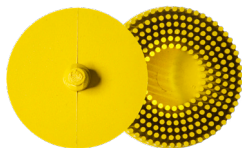

CIBO BRISTLE - Ø 200 - (STRAIGHT)

diameter	grit	code	color	width	max. RPM	
Ø 200	P50	CB/50/2002525/S	green	25,4mm	4500	1
	P80	CB/80/2002525/S	yellow	25,4mm	4500	1

These brushes are supplied with reduction rings of 13 mm, 16 mm, 19 mm, 22.2 mm.and 25,4 mm.

COMBINATION BRUSHES BRISTLE

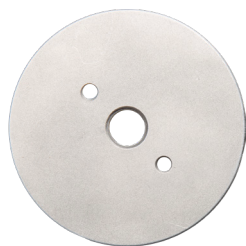

diameter	grit	code	connection	color	max. RPM	
Ø 25	P50	CB/50/25KL	R	green	25000	12
	P80	CB/80/25KL	R	yellow	25000	12
	P120	CB/120/25KL	R	white	25000	12
Ø 50	P50	CB/50/50KL	R	green	18000	12
	P80	CB/80/50KL	R	yellow	18000	12
	P120	CB/120/50KL	R	white	18000	12
Ø 75	P50	CB/50/75KL	R	green	15000	6
	P80	CB/80/75KL	R	yellow	15000	6
	P120	CB/120/75KL	R	white	15000	6

Ø 115	P50	CB/50/115KM	M14	green	12000	1
	P80	CB/80/115KM	M14	yellow	12000	1
	P120	CB/120/115KM	M14	white	12000	1

FLANGE (MHD16)

connection	max. useful width	for wheels with centre hole	code	max. RPM	
M14	25mm	Ø 49,5mm	MHD16	6000	1

Flange suitable for Cibo Bristles Ø 150, direct mounting on an angle grinder.
